

## PARK/POOL/SLIDE RULES

- No Glass or Smoking inside the facility
- Deep Water Test Rule: If you or your child/children are not strong swimmers, you will be required to stay in the shallow end of the pool. If a lifeguard removes someone from the deep end because they feel they are not a strong enough swimmer, they will be required to stay in the shallow end. A deep-water test can be given if an adult feels their child can swim in the deep water. If they cannot pass the test, you will be required to stay in the shallow end of the pool which is roped off for your protection.
- Adult Supervision: All adults with small children are responsible for watching their young children while here at the facility. Please make sure to always keep a close eye on them. Any child left unsupervised causes a higher risk of injury and is unsafe. Membership can be revoked if this rule is not followed.
- Deep End of Pool: The deep end of the pool gets deeper as you walk in because of the angled sides, so please be careful as you walk towards the center of the pool.
- Floatation devices are allowed up to the side chair closest to the diving board. Please do not take them into the area where people are diving. They are also at the lifeguard's discretion. If the pool is too busy, they may need to be removed.
- Adults are allowed to swim to the first guard chair (closest to the shallow end of the pool) with a child that cannot swim but must be always within arm's length of the child. Anyone that does not follow this rule will be told to go to the roped off section of the pool (shallow end). Adults are only allowed to have one child at a time with them.
- Potty Training: Children that are not potty trained will be required to wear a swim diaper. Also, if you have a young child, please remind them to use the restroom before they go swimming.
- Baby Pool Area: The baby pool area is for children aged 0-4. There are no scheduled lifeguards at this location. Adults must be always present if the child/children are in the pool.
- Waterslide: You must pass the deep-water test, be taller than the sign, or be over the age of 11 to go down the waterslide.
- Only one person at a time can go down on each slide. Mats must be used, and you must sit with your feet first.
- Please wait for a lifeguard to signal you to go. No goggles or floats allowed on the slide.
- Pool Closing Time: An announcement will be made 15 minutes prior to close to remind you that closing time is near. Please use that time to prepare for departure. The pool will not close until the scheduled time.
- One bounce on the diving board
- No goggles on slide or diving board
- Everyone must exit the slide pool immediately
- Must sit or lay flat going down the slide, No knees or headfirst!
- No ball tossing or chasing ANYTHING down the slide, it will get sucked into the blowers. ● No one is allowed to sit on a parent's lap going down the slide.
- No swimming under the diving board
- No stopping the water coming out of the jets in the pool, it will blow up the filter
- No running on the concrete
- No rough play in the water
- No parent can catch a kid off the water slide!
- Only squishy balls can be in the pool, no further than the 1st guard chair. No playing with the balls/squirt guns on the diving board, no exceptions!!
- NO back flips off the board
- No Jumping/diving on the sides of the diving board, jumping from the side of the pool deck is to be done between the ladders.
- NO HANGING ON THE ROPE or SWIMMING OVER THE ROPE!!!
- No chairs or beverages are allowed in the swimming pool
